What consumers are seeking

Quadrant's TopRate Web Services provide the necessary APIs in order to access our rating database from your own applications. Show comparisons for all 50 states plus D.C. for Auto, Homeowners, Condo, Renters, and Dwelling Fire – for any carrier!

Along with monetization through our partnerships, you will also gain the ability to handle advanced calculations, queries and high volumes of transactions seamlessly. With this arrangement, our technology and database resides on Quadrant's internal servers OR on your own for quick and immediate responses over the web.

Quadrant provides your shoppers with unparalleled breadth of comparison data for over 20,000 carrier markets, including National Carriers, Farm Bureaus and Key Regional Players.

How clients are using our Web Services

Fully monetized comparisons

Show quotes for all companies and have the ability to bind EVERY quote for any selected carrier.

Comparisons for Agencies/Brokers

Use our Web Services internally to sell more policies and be the e-commerce agency.

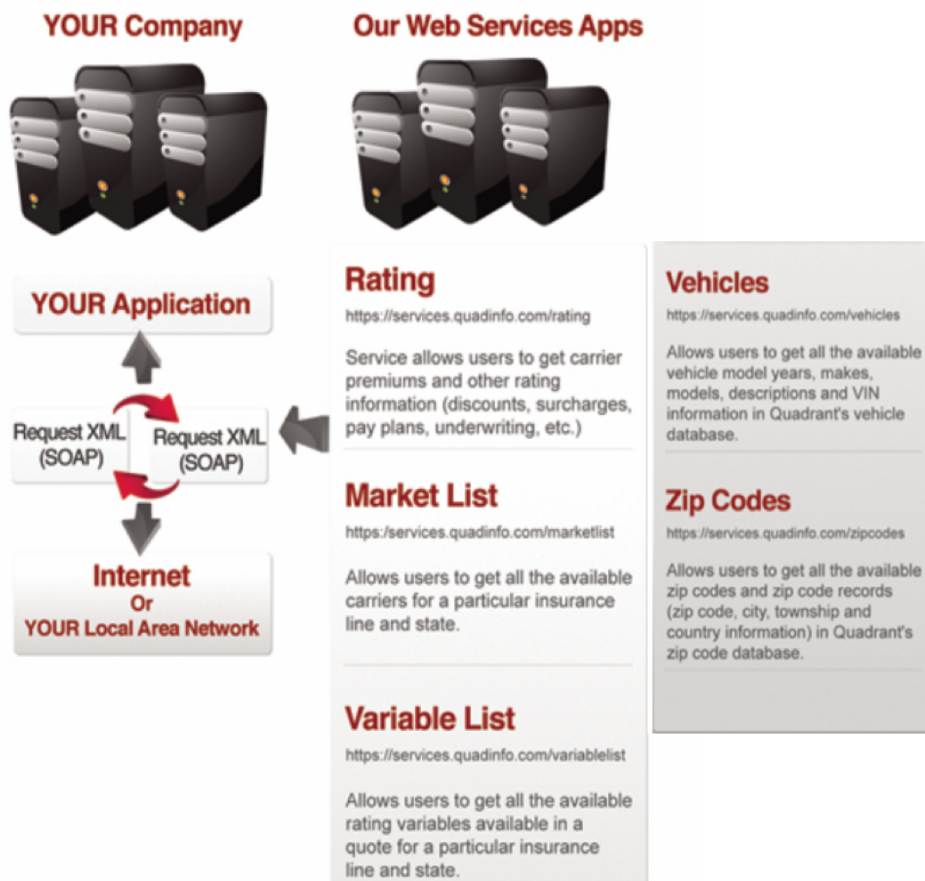

Internal Point of Sale

Call center agents can drive the sale internally with a comparison by using Quadrant's TopRate Web Services.

Lead Validation

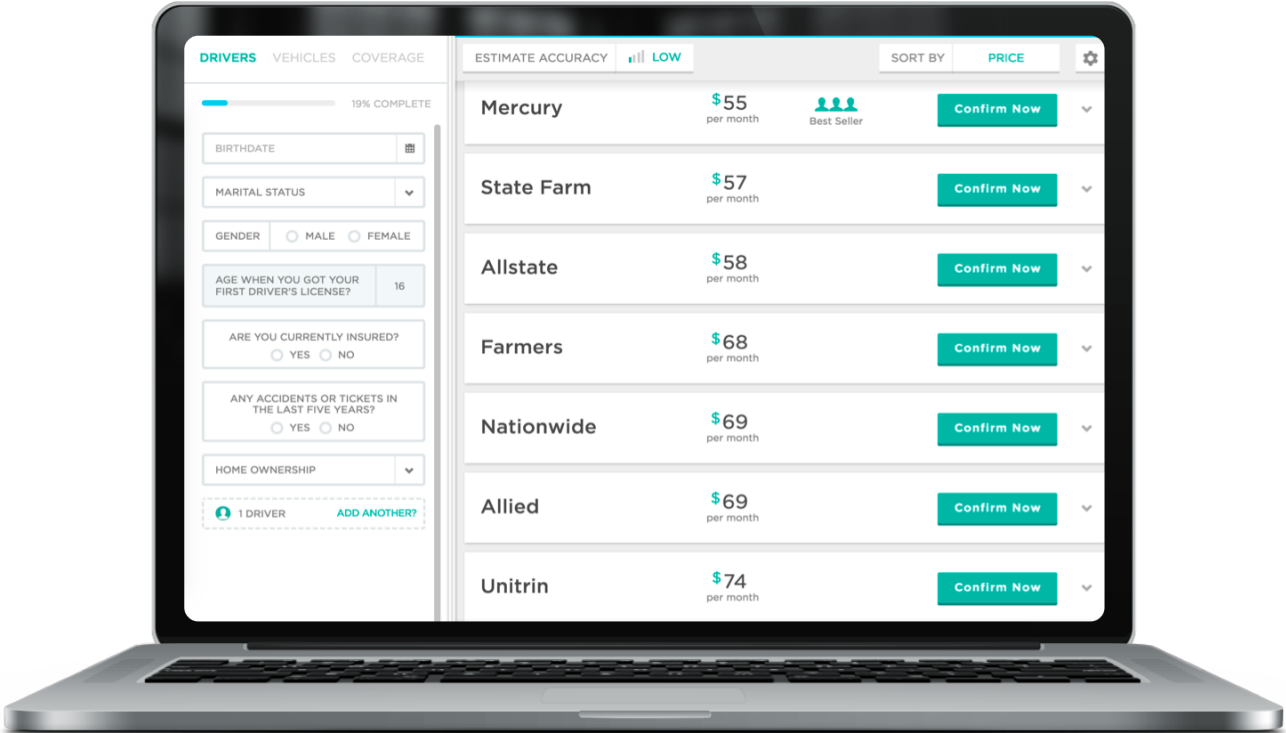

Determine the profitability of a lead before you purchase it, effectively saving your company time and money and bringing you the right leads.

How our Web Services work with your website

Contact us today to start disrupting the billion dollar insurance market by comparing insurance rates from carriers coast to coast!
